

Meeting Minutes

Grant No. : 22020162

Training of farmers V4 in techniques for environmental protection and soil water management.

Last meeting of project committee, on-line, 02.03.2022

Reason for the meeting:

Following preliminary electronic communication between the project participants, the last connection workshop of the parties' representatives focused on discussing the results obtained from the project implemented in practice between the stakeholders.

On-line: prof.h.c. prof.Ing. Pavol Findura, PhD. (SK), Ing. Miroslav Prístavka, PhD. (SK), Ing. Ľubomír Marhavý (SK), Ing. Ivana Šindelková (CZ), ass.prof. Ing. Pavel Máchal, CSc. (CZ), Mgr. Petr Adamec, Ph.D. (CZ), Dr. Zsembeli József a Dr.Maksym Stankevych (HU), ass. prof. Dr. Sylwester Tabor (PL), ass. prof. Urszula Malaga-Tobola (PL), Ing. Oľga Urbanovičová, PhD. (SK)

Agenda of the meeting:

1. Information about implemented changes in the project
2. Presentation of partial tasks of project members
3. Information on the fulfillment of the tasks of individual project partners
4. Information about the implementation of deliverables project.
5. Information on the promotion of e-learning lectures by individual partners.
6. Statistics of farmers' participation in e-learning lectures
7. Preparation and elaboration of the final project report and approval of the fulfillment of the project objectives by the partners
8. Different

Ad 1. prof.h.c. prof.Ing. Pavol Findura, PhD. informed about the changes in the project due to the Covid situation. The changes approved by the management of the Visegrad fund were in the implementation of knowledge into an e-learning form.

Ad 2. prof.h.c. prof.Ing. Pavol Findura, PhD. informed about structure of the project and about roles individual partners. The project partners informed about the creation of syllabi and their translations into world languages. They discussed problems related to solving partial tasks.

Ad 3. The following partially presented their role on behalf of the individual partners and the V4 countries:

SK- prof.h.c. prof.Ing. Pavol Findura, PhD., Ing. Miroslav Prístavka, PhD., Ing. Ľubomír Marhavý

CZ- ass.prof. Ing. Pavel Máchal, CSc., Mgr. Petr Adamec, Ph.D., Ing. Ivana Šindelková

HU- Dr. Hab. József Zsembeli. Ph.D.

PL- ass. prof. Dr. Sylwester Tabor, ass. prof. Urszula Malaga-Tobola

Ad 4. Information about the implementation of delivelables project.

Ad 5. Information on the promotion of e-learning lectures by individual partners. Prof. Findura informed about the cooperation with farmers' organizations and at the same time about the introduction of the e-learning form into farming practice. Another participant in the project prof. Machal informed about the cooperation with the AZ organization. This organization brings together manufacturers and sellers of agricultural machinery. Partners from Poland and Hungary informed about direct communication with farmers and promotion of e-learning form of education.

Ad 6. The project manager informed about the methodology of counting the participants in the e-learning form of education (numbers of farmers) via Google statistics. He stated that the set numbers of farmers had been met as planned.

Ad 7. prof. Findura informs about the preparation and elaboration of the final report of the project and agreed on the fulfillment of the project objectives by the partners.

Ad 8. Different

The participants agreed that Visegrad fund projects are important for developing cooperation between the V4 countries. There were positive references from farmers to the solved project. The website watermanagementinsoil.eu will be maintained and updated with new information as part of the project's sustainability.

The record was made: prof.h.c. prof.Ing. Pavol Findura, PhD.

Date: 03.03.2022

A handwritten signature in blue ink, appearing to read 'P. Findura', is positioned to the right of the date.
